Additional Notes for Transfer Students

The Foreign Language teacher education program curriculum is built on the belief that it is critical for KU students to not only gain a broad-based teacher education preparation, but to supplement that education with hands-on practical experience in the field. This powerful combination allows our students to excel in any classroom environment.

¹Courses offered at your community college that are equivalent to MATH 101 or 104, or higher satisfy this requirement. See KU advisor or CredTran for available courses.

²While this guide is built with Spanish, if your community college offers another language (French, German, Chinese, Japanese, Russian, Latin) you can take the Intermediate Level equivalent and follow the rest of the curriculum. If you begin your language curriculum at the elementary level you may continue at the Intermediate Level when you arrive at KU.

- While additional courses have been included on this transfer guide it should be noted that due to prerequisites and course offerings if a student spends two years at a community college, the student may still have three years of courses to complete once at KU.
