The KU School of Pharmacy is a world-class research institution and one of the country’s premier pharmacy schools. We train the pharmacists who serve the people of Kansas and the researchers who help solve the world’s most pressing medical problems. The KU School of Pharmacy consists of four departments: Medicinal Chemistry, Pharmaceutical Chemistry, Pharmacology & Toxicology, and Pharmacy Practice. Whether our students pursue careers in pharmacy practice, research, industry, or academia, they study under some of the world’s most respected and accomplished pharmaceutical scientists.

Our Doctor of Pharmacy (PharmD) degree program is designed for students seeking a career as a pharmacy practitioner. The KU School of Pharmacy offers the PharmD program on the Lawrence campus and in Wichita. We accept approximately 150 students annually for each fall-semester cohort start, of which approximately 20 students attend synchronously via the Wichita satellite. While the minimum pre-pharmacy GPA requirement for admission is 2.50, admission is competitive. The average admitted GPA is historically between 3.40 and 3.60, with Pharmacy College Admission Test (PCAT) scores above the 60th percentile. Completion of the pre-pharmacy curriculum does not guarantee admission to the KU PharmD program.

This transfer guide provides important information and a sample four-semester plan for a student starting at Johnson County Community College and transferring to KU for the remaining coursework. Community colleges and KU each provide additional courses a student may choose as well. Each student’s background and academic goals are unique. Thus, we strongly recommend early and continuous communication with an academic advisor in the KU School of Pharmacy. See contact information at the bottom of this page.

KU School of Pharmacy Admission Requirements

1. **Step One: Admission to the University of Kansas**
   All incoming students must first apply to the University of Kansas. Admission applications to the University of Kansas may be completed online at www.admissions.ku.edu/transfer. Gaining admission to the University of Kansas requires the submission of official college transcripts from all previously attended colleges/universities. Please note that indicating “Pharmacy” on your application to KU does not grant you entry to the KU School of Pharmacy. For scholarship consideration, we encourage you to apply to KU by February 1st.

2. **Step Two: Admission to the KU School of Pharmacy**
   Details regarding admission to the KU School of Pharmacy can be found at www.Pharmacy.KU.edu. Transfer students are encouraged to apply during the fall semester prior to the year they plan to begin at KU. The application deadline is February 1st, with a priority deadline of December 1st. A complete application includes: admission to KU, Pharmacy College Admission Test (PCAT) scores, applicant profile form, three recommendations (form plus letter), and official transcripts. Our preliminary review of these materials may result in one’s receipt of an application checklist and/or an invitation to interview. If so, these items must be completed in order to fully navigate the application process. **Admission is competitive and is not guaranteed.**

   Minimum Requirements to Apply to the KU School of Pharmacy:
   1. Completion of the pre-pharmacy 68 credit hours, from a regionally-accredited college/university and with a grade of C or higher, prior to entering the KU PharmD program. Students should apply for admission to KU during the academic year in which they will have completed the specified 68 pre-pharmacy credit hours, including the 12 credit hours unspecified/designated for KU Core (general education requirement) options in categories GE3H, GE3H, AE41, and AE42 (one course each, per category).
   2. Work with your advisor on how community college credits are applicable within your individual situation.
   3. A minimum 2.50 GPA overall and 2.50 GPA within pre-pharmacy science and math courses is required, but admission is competitive. The average GPA for successful applicants is much higher, typically between 3.00 and 4.00.
   4. All chemistry and biology laboratory components in the pre-pharmacy curriculum must be completed in a live, traditional classroom-based lab environment. No simulated, online, nor otherwise off-site lab components are accepted. **No online labs will be accepted.**
   5. Required courses include:
      - CHEM 130
      - CHEM 135
      - CHEM 330 & 331
      - CHEM 335 & 336
      - BIOL 150
      - BIOL 240
      - BIOL 400 & 402
      - BIOL 546 & 647
      - MATH 115
      - MATH 365
      - PHSX 114
      - ENGL 101
      - ENGL 102
      - COMS 130
      - KU Core Goal GE 3H
      - KU Core Goal GE 3S
      - KU Core Goal AE 41
      - KU Core Goal AE 42

#### Second Semester

| Critical Reading and Writing, ENGL 102 (GE 21)     | ENGL 122                                               |
| Statistics, MATH 365 (GE 12)                      | MATH 181                                               |
| Microbiology and Lab, BIOL 200 & 203              | BIOL 230 & BIOL 231                                     |
| General Chemistry 2 with Lab, CHEM 135 (GE 3N)     | CHEM 131 & 132                                         |
| College Physics 1 with Lab, PHSX 114 (GE 11)       | PHYS 130                                               |

#### Third Semester

| Speaker-Audience Communication, COMS 130 (GE 22)   | SPD 121                                                |
| Organic Chemistry 1 and Lab, CHEM 330 & 331       | CHEM 220                                               |
| Human Anatomy, BIOL 240                           | BIOL 140                                               |
| GE 3S KU Core Requirement                         | Select Approved GE 3S Course                           |

#### Fourth Semester

| Organic Chemistry 2 and Lab, CHEM 335 & 336       | CHEM 221                                               |
| Physiology and Lab, BIOL 246 & 247                | BIOL 225                                               |
| AE 41 KU Core Requirement                         | Select Approved AE 41 Course                           |
| AE 42 KU Core Requirement                         | Select Approved AE 42 Course                           |

### Additional Notes for Transfer Students

- 1If your school teaches a combined Anatomy and Physiology 1 and 2 both courses must be completed to consider the Anatomy and Physiology requirement met. Visit with the School of Pharmacy to discuss options available if your institution offers only one Anatomy and Physiology course.
- 2The School of Pharmacy accepts courses equivalent to BIOL 200 & 203 and BIOL 246 & 247 in lieu of BIOL 400 & 402 and BIOL 546 & 647 when taken at a community college prior to initial enrollment at the University of Kansas.
- 3Transfer courses may be matched to a course of opposite level at KU, but the level of credit is defined by the originating institution. (All community college courses are lower level.)
- Transfer credits with earned grades of D+ and below will not satisfy degree requirements, but are included in the transfer GPA.
- View the most up-to-date listings of transferable courses at: www.CreditTransfer.KU.edu. You can search by specific KU Core goal or view many of the courses that transfer to KU. If a class is not listed contact transfercredit@ku.edu to inquire about transferability. It is the STUDENT'S RESPONSIBILITY to check for updates to all transfer information. This transfer program is provided as a service and is updated annually. Degree requirements are subject to change.
