In addition, we provide additional courses a student may choose to take at the community college prior to transferring to KU. Each student’s background and goals are unique. Thus we recommend ongoing communication with an advisor in the KU School of Education. See contact information at the bottom of this page.

### Additional Notes for Transfer Students

- \(^1\)Most community colleges offer a course equivalent to MATH 101, however, courses equivalent to MATH 101, 104 or a course higher than MATH 101 may also be taken to complete this requirement.
- While additional courses have been included on this transfer guide it should be noted that due to prerequisites and course offerings if a student spends two years at a community college, the student may still have three years of courses to complete once at KU.
- Transfer credits with earned grades of D+ and below will not satisfy graduation requirements, but will be included in the transfer GPA. If a student takes a course and then repeats it at the same institution, KU will honor the course repeat policy in effect at the institution issuing the transcript.
- A bachelor’s degree must include 120 completed credit hours. A student may apply a maximum of 64 credit hours of community college coursework to a KU degree. A student will work with an advisor to select the 64 best hours for the degree.
- Transfer courses may be matched to a course of opposite level at KU, but the level of credit is defined by the originating institution. (All community college courses are lower level.)
- View the most up-to-date listings of transferable courses at: [http://credittransfer.ku.edu](http://credittransfer.ku.edu). You can search by specific KU Core goal or view many of the courses that transfer to KU. If a class is not listed contact [transfercredit@ku.edu](mailto:transfercredit@ku.edu) to inquire about transferability.
